

Applied Statistics: Time Series

Course introduction

Robin Delabays

September 10, 2026

Course organization

Day and time: Variable throughout the semester.

Online material: All material will be made available from [this webpage](#).

First exam: November 10, 2026: Brief exam (most likely QCM), approx. 45 minutes.

Second exam: January 19, 2027: Longer exam with hands on, approx. 90 minutes.

Course wiki: A course wiki will be set up. The idea is that you create your own list of important concepts. You fill it, I check it.

Course (approximate) schedule

15.9.26: Intro to the course and intro to time series

22.9.26: Recap of statistics

29.9.26: Advanced basics

6.10.26: *Lab on time series basics*

8.10.26: Recap on vectorial geometry

15.10.26: Fourier 1/2

20.10.26: Fourier 2/2

3.11.26: *Lab on Fourier*

9.11.26: Recap and mock exam

10.11.26: CC and correction

Time Series

Course (approximate) schedule (bis)

17.11.26: Autoregressive models

19.11.26: Moving average (recap) and ARMA models

10.12.26: ARMA fitting

17.12.26: *Lab on ARMA*

19.1.27: Final exam

Special needs

1. Talk to your *Responsable de filière* (Mme Birgit Sievert).
2. Mediator: Laurence Laffargue-Rieder,
laurence.laffargue@hevs.ch.
3. Tell me what I can do to help.

Additionnal reading: [Diversité et réussite dans l'enseignement supérieur](#)

Working practice

- Take notes
- Take breaks
- Studying is a social activity
- Regularity

LLMs...

Use it with care!

- Sparring partner
- Talk with it, challenge it.
- Understand how and why it gave an answer.

Cheating: We will be extra careful from now on.
